Art Unit: 2621

1. Applicant's arguments, see remarks page 4, filed 6-24-05, with respect to Kobayashi et al. (US 5,892,515) and Cline et al. (US 6,204,853) not teaching the smoothing operation of the edge of the model and transforming the edge into a curved surface having a predetermined radius of curvature of claims 1 and 6 have been fully considered and are persuasive. The rejection of claims 1, 2 and 6 has been withdrawn.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: claims 1, 2, 6 and 7 are allowed because, the prior art of record specifically Kobayashi et al. in view of Cline et al. fails to teach smoothing the detected edge to form a curved surface having a *predetermined radius* and dividing the 3D model into hexahedral elements wherein the length of each edge of the hexahedral elements is *less than the predetermined radius* of the curved surface of claims 1, 6 and 7 combined with other features and elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
